Interchangeable Magnetic Door Signs

Ideal when clinics or practitioners change from day to day.

**Mr A. Consultant
Consultant**

Different clinics running on different days?

Different practitioners working in different rooms each day?

We've got just the solution - a thin magnetic assembly that allows door signs to be swapped in seconds according to schedule requirements, at a fraction of the cost of alternative methods.

**Andrew Anyname
Clinical Nurse Specialist**

Our magnetic door signs comprise of a thin, flexible, self-adhesive rear layer that can be affixed to almost any surface and a flexible magnetic front layer.

Available in any size - both layers are easy to wipe clean and can be coloured to match any colour references required.

Simply order a back plate for each door and as many front plates as required. When requirements change, extra front plates can be ordered to the same measurements quickly and easily to stay up to date.

Prices are dependent upon size and quantity required, please call us for further information.
