Professional 'Meet the Team' Photoboards

Reassure patients and visitors with a professional appearance

Most hospital wards will have a pinboard near the entrance or reception desk displaying photographs of the team providing care in that ward.

Too often these boards are inconsistent in design comprising of 'homemade' collections of photographs of varying size and quality beneath a header that does not comply with Trust branding or ward/wing colours.

Our 'Meet the Team' displays use professional photograph editing and layout practices to provide the same information in a standardised way, offering consistency in appearance, reinforcing branding and colours and providing a greater level of benefit to the patient experience.

- Robust and fire retardant lockable covered housing.
- Professional appearance.
- Bespoke design offers consistency across the Trust.
- Photographs are easy to change/update.
- Available in a range of sizes to suit any application.
